Re: Consumer Choice of Oysters and other shellfish products

In just 2 days we were able to secure these signatures from customers that are oyster eaters and concerned about their right to choose to eat a raw Molluscan Shellfish.

We submit to you these petitions for consumer choice. Consumer choice is an important part of the United States of America. We urge you to reject a mandatory post-harvest requirement for all oysters. Let an educated public continue to eat the raw oyster product.

Sincerely,

Karen Oertel  
Harris Crab House

## Coalition for Consumer Choice

We the undersigned, do strongly oppose efforts to eliminate consumer choice of oysters and other popular shellfish products through the Food and Drug Administration's (FDA) review of a petition that proposes adoption of additional costly and unnecessary shellfish processing rules and regulations now under consideration.

We support the American concept of consumer choice. We believe the shellfish industry's campaign of consumer education and awareness is the best way to protect the very small percentage of Americans who may be affected by eating certain shellfish.
